PET PENS™

Constructed in our own workshop using the latest techniques, all Pet Pens are hot dip galvanised and closely inspected before dispatch.

Ideal for raising litters for small or large breeds. Pet pens can be used internally or externally and our unique 'Post System' allows easy relocation, extension or segregation including irregular layouts.

- 🐾 Made to measure covers available.
- 🐾 No bolt construction for quick and easy assembly and flat storage.
- 🐾 Separate and segregate. Particularly useful for feeding time.
- 🐾 Choose from stock items or give us your own individual requirements.
